I one into pushes.

I believe I have truly stated the points of dif-ference which utrimately revered the Conven-tion, and have presented to the country the non-mations of Senator Honglas and of Vice President Breckinridge. It is also true that, from the shaveholding States, many Democrats were present who remised to leave the Conven-tion upon these points of difference, regarding them as of no consequence; while others dis-tinctly coincided with and embraced the doc-trines advanced by the Senator from Himois, and upon the e-points the latter promised the acquiescence of the people of the shaveholding States, to be shown by the debat of Mr. Breck-inridge.

If the Donglas Bemocrats, who advecte Squatter Soveregarty, hading themselves to a minority, shall thus with the Belland Everet men to de-feat Breekinridge, their only object in doing so will be to give an approximate to the second shall his with the Bell and Everett men to defeat Breckinridge, their only object in doing so will be, to give an appearance to the result as having decided the question, on which Mr. Breckinridge is put ap, against our view of the equality to which our people are considered. The equality to which our people are considered. Bell and Everett would make a most respectable combination—under ordinary circumstances, Bell and Everett would make a most respectable combination—under ordinary circumstances, the opposition to Democracy would sustain it even on the broad generality which the Constitutional Union party has launched as sufficient and best for the times. But Charleston and Baltimore have made extraordinary circumstances which summon usual to action, in our own leshalf, in another direction. Mr. Marshall. No. My principles as an American are as warmly cherished by me as they ever
were, and I shall always believe that the best interests of my country would have been subserved by adopting an amendment of our naturalization laws, and limiting suffrage to critizenship
everywhere. I cannot make the law by myself,

It may be proper, since I have been thus questioned, that I should say here that I am not seeking to enter the Democratic organization.—
I differ with Mr. Breckinridge upon many questions, perhaps, of public poincy, but there are many upon which we agree. FOR PRESIDENT,

JOHN C. BRECKINRIDGE. Of Kentneky.

FOR VICE PRESIDENT. GENERAL JOE LANE,

Of Oregon.

Democracy in Kentucky. The Democrate of Kentneky are perfectly united. Every member of the State Central Com mittee supports BRECKINEIDGE and LARE. The Governor, the Lieutenant Governor, and all of the State officers are for BRECKINBIDGE and LANE. The Electors for the State, appointed at the last Convention at Frankfort, are for BREG K-

INRIDGE and LANE. Nine of the ten, as we are informed, of the District Electors regularly appointed, are for BRECKINRIDGE and LANE. The resolutions adopted at the last State Convention by a vote of six or seven to one are in strict no BRECKINRIDGE and LANE stand. The Democratic newspapers of the State are almost all for BRECKINRIDGE and LANE. Fifteen of the twen ty-four delegates to the National Convention ar for BRECKINRIDGE and LANE-these certain, probably more.

Such is the position of the party in Kentucky.

Its whole organization is for BRECKINKINGS and LANE, the representatives of its principles Will the advocates of the sovereignty of the Territories concede the right of the people of the State to settle their own politics? If so, the Democrats of Kentucky acting through their regular organization may determine what is De-mocracy; and they have indicated that Breekin-RIDGE and LANE and those that support them are Democrats in good standing. This exclude om the communion all others. Nothing can be clearer.

The Squatters appreciate this. They feel that they are not of the party. Their conduct admits it. Their organ is opposed to the Frankfort Couvention. It is regularly called, it is true; but it is a Democratic Conventio therefore "inexpedient," and therefore the Douglasites are not going into it, and will no support the candidate nominated by it.
We like this. Having abandoned the part

they cannot honorably participate in its conventons, and an attempt on their part to describe would only subject them to the mortification of finding the doors closed against them. Hence they will get up a Convention of their own, a State Central Committee of their own, an Elec toral ticket of their own, nominate candidates of their own, and manage "their own affairs in

their own way."

We have taken the ground that no man who intends to support any other ticket than BRECK-INRIDGE and Lane can be admitted into the Concention, or be nominated by it. This is doubt less the feeling of the whole party. The action of the Convention will certainly accord with it. The Douglasites take the same view of it, and ably make no nomination of their own for Clerk of the Court of Appeals, and will support, this rectly or indirectly, the Bell and Evenett candidate, hoping to make something out of the defeat of the regular nomince of the Slate Conven-tion, which, of all things just now, they desire.

A few extracts from the leading editorial in Sunday's Democrat will indicate the feeling. urpose, and tactics of those for whom it speak (The italics are onrs:)

The State Convention, called for the 18th, to nominate a Clerk for the Court of Appeals, was well enough when it was issued; but a clange has since come over a portion of those who have been, heretofore, Democrats. Such a Convention is now inexpedient. Onr advice is, to let this nomination of a Clerk of the Court of Appeals go overboard.

In the meantime, we repeat, let this Convention at Frankfort, on the 18th, slide. If rumor does no injustice, a majority of the Central Committee belong to the Seceders They ner revolutionists in the party, and have no right to net for it. They can set up no plea of regularity; for they belong to a crowd that have seceded and tried to break up the party. It may be said that by refusing to take any part in this Convention, we give the office of Cirk of the Court of Appeals to the Opposition. Very well. We shall not need in Convention with one set of Oppositionist—the most bitter and proscriptice of the live—to beat the other.

We, therefore, suggest to the true Democracy of the State to have nothing to do with this Conention on the 18th. Comment is unnecessary.

Bolters.

The Squatters call the Constitutional Democ racy-the friends of BRECKINRIDGE and LANE-"bolters," hoping thereby to decelve and mislead that portion of the Old-Line Democracy who think the party can do no wrong. There are few men who can be led astray by such means.

But who are the "bolters?" Let us see: The

Douglasites bolted the regular organization in Arkansas, and in a mass meeting-ealled together by men, some of whom were not Democrats, and others of them citizens of another State-appointed delegates to the National Convention. They bolted the regular organization in Louisiana, refusing to abide by the action of the regular State Convention, and sending delegates to Baltimore representing an improvised organization of their own. They bolted the regular organization in Alabama, refused to take any part in the State Convention, got rp a separate Convention professedly not composed exclusively of those who even call themselves Democrats, and headed a delegation to Baltimore by a man who never gave a Democratic vote. They bolted the properly called State Convention in Georgia, after they had recognized Its regularity by going into it. They bolted the regular organization in the cases of Mr. Hall ETT: of Massachusetts, and of Mr. O'Fallon, of Missouri. In the National Convention, they sane-tioned nearly all of these boltings by receiving delegates entitled to their seats only by virtue Nor is this all. The bolting is kept up. We

are to have a specimen of it in this state.

The Convention for the 1sth of July is regu. larly authorized in all respects—confessedly, un-deniably so. Yet we are notified in advance that its action will not be respected, that its proceedngs are not to be participated in hy men claimlng to be the special advocates of regularity and Democrata par excellence, that its nominee is not to be supported. We call attention to this fact. We beg Kentneky Democrats to consider the manner in which this Convention is railed, and to reflect upon the fact that the Douglasites do not recognize it as Democratic, and prefer the election of the Opposition candidate for Clerk of the Court of Appeals to the success of the

The Journal has something to tell us. Of course it is something terrible. It wouldn't he in such haste to communicate good news. And of course it takes "real pleasure in imparting" any information which is likely to strengthen the hands of its allies, the Douglasites, so as to make it possible for BELL and EVERETT to carry Kentneky, as it hopes to do only by their assistance. It delivers its message, confidentially it may be, but confidently as it does all things, and with the assurance that marks its biggest blumders and strangest mistakes. Information borne to its vigilant car on the breeze of the morning, or gathered from the merry carols of the little birds, is graciously imparted to us, and through us to the public. It is this:

"Mr. W. A. Ellis, the Democratic candidate for Sheriff, has around himself a supporter of Lougha and Johnson. There is no doubt about

None in the world. There can be none in the minds of the public. The reputation of the Journal, we are sorry to say, is none of the best; and as it is taken for granted that whatever it asserts with great positiveness, is Intended for "buncombe," it is unnecessary to correct its straight line, this being done by its readers.

As usual in such cases, this statement in regard to Mr. Ellis, introduced with a flourish of trumpets, and dwelt upon with nuconcealed satistion, is unauthorized by the facts. Mr. W. A Ellis, Democratic candidate for Sheriff, has not around himself a supporter of Doublas and Johnson. Of course the Breekinkings men will not make a fuss about something that has no existence. Mr. Ellis was chosen in a full Con cention of the Democrats of Jefferson county, as a candidate for Sheriff; and unless he shall voluntarily sever his connection with that parly, we doubt not he will be elected by those who numsted him, much to the chagrin and mortilication of the Journal.

is the discovernment for an organic law, it give them political existence.

It is idle, however, to discuss this question in this form. For il Congress possess the power to organize temporary governments, it must then possess the power to legislate for the Territories. If they may perform the greater, they may the less; the major includes the minor proposition. Hence, Congress lins, in all cases since the foundation of our Government, reserved a veto upon the legislation of the Territorial Governments: it is absolutely accessory, in order to restrain them from violations of the Constitution, and infringements of the rights of the States, as joint awners of the public lands. If, therefore, an act of the Territorial Government, prohibiting slavery, should be sent up to Congress for approval, they would be bound to withhold it, upon the ground of its heing an act which Congress themselves could not pass.

But suppose the right of legislation for the Territory be in its inhabitants, can they prohibit slavery? Savely not, and for reasons similar to those which show that Congress cannot.

In his gait he goes lowed long, carries his body steady and level, without any hitely, bounding or rolling, and in stride excels any trotting horse ever yet seen. In a word, he is a great mass of unimal mechanics, in whose heart is high courage, and in whose every tibre is unfuld nervous energy. With speedy form and strong spirit, he can go and can last; and when the pace is so rattling that it kills, he will be the longest to stay the distance, the last to give back, and it must be a hard day and a killing pace that will make him show "the white leather," which, as yet, though leaten, has never waved over him. Bloody Affray at Cambridgeport, Mass. Encounter Between Police Officers and Burylars— Burglar Captured after Bring Twice Shot—An Officer Severely Stabled.

A dispatch in the American yesterday mentioned the capture of a noted thief in Cambridgeport, Massachusetts. The Boston Traveller contains the following particulars:

Between one and two o'clock this morning one of the bloodiest encounters between poine oilleers and burglars which ever took place in this vicinity occurred at Cambridgeport, resulting in the capture of noted burglar named John Huray, after he had been twice severely wounded with bullets, and after he had inflicted some dve or six wounds with a kuffe upon officer William Loughrey, one of the most efficient policemen in the city. The following are the full particulars of the officer. of the affair:

Between twelve and one o'clock Mr. Josiah Sawyer, wha lives at the corner of Brookline and Auburn streets, Cambridgeport, heard a noise in his shae store, adjoining his house. On getting up he saw a light flash in the store, and approaching the door, he called out—"Who's there? What do you want?" The light went out, and two men, who were in the store, immediately goi into a covered buggy which they had left near he store, and drove off. Mr. Sawyer gave no alarm whatever. HOLLOWAY'S DIVINENT

Officer Beujamin F. Bridden soon after, while standing on Brookline street, saw the carriage passing along and without any knowledge of the hurgiary, thought it best to follow its course. On reaching Ma.n. street it urneal, and as it went past him he saw two men in it. He soon after saw Mr. Sawyer, who teld him what had huppened, and on going into the store it was found that the burglars had entered by toreing open a back door. They had twisted up a newspaper and used it for a torch. Between finy and seventy-five cents only had been taken from the money drawer, which had been forced open.

Mr. Bridden then left, and on resching the periodical store of Mr. Thomas Work, 250 Main street, saw a light there. On approaching it cantiously, he saw through the lights of the door, which had been forced open, two toen inside, one of them holding a lighted breth, shmilar to the one found at Sawyer's store, and the other in the act of twisting up another. He thought if he attempted to arrest the men Inside, the two would prove too much for him, and he also feared that they might escape by a rear entrance. He accordingly drew a Colf's revolver, and aiming it at the end of the counter, where'se had seen the man standing with the torch, fired.

The ball, as it afterwards appeared, hit the man on the left arm, breaking it and lodging in the flesh. Nothing was suid, and he intunediately fired again. The effort mathe in publing the trigger caused a depression of the unuzzle, so lat, the ball siruck the door just below the pain of glass broken by the other bullet. THE RIVER was still falling yesterday, with only three feet one inch water in the canal by the mark at dark. During the previous twenty four hours, the river at the head of the falls had receded nearly two inches. The weather was extremely warm and clear, with the thermometer ranging from eighty-sevento ninety-two in the chade in the afternoon, the hottest of the season, though there was a breeze stirring, which materially tended to allay the heat. The river at Cincinnati, yesterday, had fallen four hes, with warm, day weather, and no report from

Pittsburg.
To D. S. Greer, clerk of the Gen. Pike, from Memphis, we are indebted for the latest river intelligence. She came up over all the bar- without delay or hin-drance, and reports four and a half to five feet on a 1 the bars, except Flint Island, which Is now the shoalest point, with quite a number of boats hard aground on the bar, which makes it worse than it otherwise would be, as the channel is obstructed, and cannot

The Silver Wave was on Scuffletown bar.

The Peytona, from New Orleans, as we learn by dispatch to Benedict & Son, the agents, went as far as Scuffetown, but couldn't get over the bar, and turned back to Evansville, where she has laid up. Her offi-cers are coming home by rall.

The passengers of the Peytona were reshipped on

the Gen. Pike, at Evansville, and arrived here yesterday all right, and in good time, thus proving that the navigation of the river continues open, though con-siderably obstructed by hideons saud bars. The Gen. Pike, a neat, commodions side-wheel

boat, in charge of our courteous friend Capt. Martin, returns to Cairo and Memphis this evening. She starts from Portland, and, being of unusual light draft, will go through without fail or delay. Passengers and shippers will find her the best boat for low vater, and her officer- attentive The gallant Wood ford, from New Orleans

was at Vicksburg early yesterday morning, on her way to this port. She will be due Friday, and returns The Atlantic, Capt. McGiil, left New Or-

icane last evening for this port, but will not be able to get through, unless the river should rise in a day or two, which is not probable. The Bay City, the boat that has gained rather an unenvied reputation of late, passed up yes-terday, from St. Lonis, going home to Pitusburg. She made no stop at the wharf, and appeared to have neither passengers nor freight. The boat was in

rge of J. J. Smith, the gallant pllot who went to rescue of the people on the ill-fated Ben Lewle, with the life-boat. We nuder-tood that Capt, Miller, the chief owner and Captain, was at Jeffer-conville, awalting the arrival of the boat, but whether she landed for him or not we did not learn. Capt. Smith was e ridently on a

quick trip, trying to make the Bay City outrun or d'e-tance the clamor behind her.

The Tempest from Cumberland river had come 35 hhds tobacco, chiefly for Baltimore, and 75 tons of plg iron for reshipment.

A MISTAEE.—We are glad to learn that the

report that the new Jeffersonville ferry boat, Isaac Bowman, had broke a chaft Sunday, was erroneous She was making her trips yesterday all day long, as The Fort Wayne Is working her way South ery slowly, not having got farther than Shippingport last evening. The Fanny Bullitt, in charge of Capt. Dunham, starts to New Orleans this evening at 5 o'clock, from Portland. She takes but little freight, owing to the ow stage of water.

Thanks to the baggageman and oinnibus on the Jeffersonville line for prompt atten-

those. They are reliable.

The City Wharf.—A few days since we directed the attention of the new Council to the ur, finished work of the last Council on the city wharf, and we learn that efficient measures have been taken by the Wharf Committee to prosecute the work. Our clever friend J Milt Moore is chalrman of the Wharf Committee, and we know he will devote his energies to the benefit of the boatmen, and the steady prosecu-

The Telegram and Vigo arrived from Red river. They both have been laid up.
